

Week 7 Assignment

The graphic below shows four datasets, each with 2 variables and 10 observations. Show off what you've learned so far in the course by using R to analyze and compare the data in these datasets. You may work alone or with up to three other students on this assignment.

(Remember that assignments are worth 10 points and projects are worth 100 points, so plan accordingly; you'll receive full credit on the assignment if you turn in something reasonable).

I		II		III		IV	
x	y	x	y	x	y	x	y
10.0	8.04	10.0	9.14	10.0	7.46	8.0	6.58
8.0	6.95	8.0	8.14	8.0	6.77	8.0	5.76
13.0	7.58	13.0	8.74	13.0	12.74	8.0	7.71
9.0	8.81	9.0	8.77	9.0	7.11	8.0	8.84
11.0	8.33	11.0	9.26	11.0	7.81	8.0	8.47
14.0	9.96	14.0	8.10	14.0	8.84	8.0	7.04
6.0	7.24	6.0	6.13	6.0	6.08	8.0	5.25
4.0	4.26	4.0	3.10	4.0	5.39	19.0	12.50
12.0	10.84	12.0	9.13	12.0	8.15	8.0	5.56
7.0	4.82	7.0	7.26	7.0	6.42	8.0	7.91
5.0	5.68	5.0	4.74	5.0	5.73	8.0	6.89

Assignment 7 is due end of day on Tuesday October 14th. We'll share out the best submitted projects with the entire class.
